## NOTES AND COMMENTS.

## THE SMOKE SITUATION.

If Hongkong is not to become a second smoky London, steps will shortly have to be taken to put a check upon the smoke nuisance. Some of the steamers which leave the harbour are great offenders in this respect and apparently burn bad coal, or burn it in such a manner as to produce a maximum of smoke which rolls from their funnels for several hours before their departure in dense black clouds which envelop everything and everybody in the vicinity in a rain of soot. The funnels, too, are not infrequently a great nuisance to the offices situated on the wharves, as they directly oppose, and with the wind on shore the smoke finds its way directly into the open windows, carrying dirt and soot with it to drive the clerks to distraction. Factory chimneys are increasing in number rapidly and these add to the smoke nuisance in no small degree, so that on a calm day one often sees a dense pall overhanging the town, through which the rays of the sun feebly struggle and give a coppery appearance to everything. It would be a step in the right direction if the Government looked into the matter, for the longer the nuisance is allowed to continue, the more difficult will it be to put an end to.

THE WAR.  
ESCAPE OF TWO BRITISH OFFICERS FROM PRETORIA.

LONDON, APRIL 3rd.

Capt. Mahomed of the Gordons, and Lieut. Le Mesurier have escaped from Pretoria and arrived at Lourenco Marques.

## THE RECENT REVERSE.

## A TERRIBLE SIGHT.

Reuter's correspondent at Bloemfontein says that the scene of the Ambush was a terrible sight, the spirits were filled with the corpses of horses, and broken waggons in hideous confusion. It was only General Broadwood's presence of mind and skilful handling that prevented the destruction of the entire force.

## MORE TROOPS FOR RHODESIA.

## SUPPLIES FOR BEIRA.

The Transport "Chicago" is leaving Capetown for Beira with a portion of the Bushman's Corps, horses, mules and plant for the Rhodesian railway. A large stock of supplies and provisions are also going to Beira.

LATER.

## BLOEMFONTEIN.

## WATERWORKS STILL OCCUPIED.

Reuter's correspondent at Bloemfontein, under date 2nd inst. says that the enemy still occupy the water-works and that the Boers who were shelled yesterday returned the fire. It is reported that some of the Boers are moving to the South.

## BRITISH GALLANTRY.

## PRAISE FROM LORD ROBERTS.

A despatch from Lord Roberts praises the gallantry of the 9th Battery in the Ambush affair, in which many of the officers served the guns as gunners, and fell under the effect of several hours across fire.

## WEATHER REPORT.

The Observatory report says:—On the 5th at 11.55 a.m. the barometer has fallen on the China coast, owing to the existence of a depression in Central China. Pressure is highest over Japan. Gradients slight to moderate for S.E. and S. winds on the China coast. FORECAST:—Moderate or fresh S. winds; squally, showery.

## LOCAL AND GENERAL.

The English Mail of the 3rd March was delivered in London on the 31st ult.

MELNITE, as used by the Boers, is fused picric acid and creosylic acid, while lyddite is picric acid made very dense by fusion. The shells are coated inside with varnish, and the picric acid cast inside. A strong detonator of ammonium picrate and saltpetre is used.

We reported recently the capture of an impudent rascal who, while employed painting Mrs. Nolan's house, stole a quantity of valuable. This morning he was sentenced to three months' imprisonment, but refused to disclose where the stolen property had been secreted. None of it, therefore, has been recovered and it has since been found that two gold rings the property of Mr. Cole, a lodger at Mrs. Nolan's, are also missing. All told we rather expect that Chinaman will be fairly well paid for his three months' incarceration.

At the Chicago Vaudeville Theatre is posted the following notice to artists: "It is a strict rule of this house that all 'cuss words' must be omitted by all performers." Last month a reciter gave some of Kipling's poems, but after the first performance the oaths were ordered to be cut out. The reciter expostulated, and informed the manager that he had recited those same poems in churches, and no one had ever objected before. "I don't care a cent, what they do in churches," replied the manager, "but the Vaudeville has a reputation to maintain."

The following notification was issued yesterday as a *Gazette Extraordinary*:—

GOVERNMENT NOTIFICATION.—NO. 139.  
It is hereby notified that His Excellency the Governor and Commander-in-Chief, Sir Henry Arthur Blake, K.C.M.G., having left the Colony this day, His Excellency Major-General William Julius Gascoigne, C.M.G., was thereupon duly sworn in by His Honour the Chief Justice in the presence of the Executive Council, and assumed the Administration of the Government.  
R. F. JOHNSTON,  
Acting Clerk of Councils.  
Council Chamber, Hongkong, 4th April, 1900.

WHEN we wonder, as we do, have a glimpse of the sun and a day? Every person one meets in the street can just be described in the words of Mr. Mantelini as a "demi, demi, moist, unpleasant body," and they feel it as well as look it. Collars collapse, boots go mouldy, shirts develop mildew, walls weep, mud reigns triumphant, and one's temper becomes prematurely soured and short. This is certainly the wettest spring that Hongkong has experienced for some years, but then we always run to extremes here. Last year we were short of water; this we have more than enough!

His Exc. Monsieur Pichon, French Minister at Peking, arrived at Foochow on the 17th ultimo on board the French cruiser *Pascal*, with his wife, Commandant Vidal, military attaché, and Monsieur Berteaux, interpreter of the French Legation. The Minister visited the Arsenal during the afternoon and came up the next day to Foochow. On the 18th, Madame Pichon, together with a few officers from the *Pascal*, was entertained at dinner at the French Consulate by the Count and Countess de Calabre, in the absence of the Consul, who accompanied the Minister and his suite into the city on their visit to the Viceroy. During the afternoon Madame Pichon and her party made an excursion into the city, while the French Minister returned to the Consulate to receive the official visits of the Viceroy, Mgr. Masot, Monsieur Popoff, Consul-General for Russia and Mr. Playfair, Consul for Great Britain. The whole party returned to Pagoda the same evening, and left for Shanghai and Peking on the 19th ultimo.

A PECULIAR anomaly in the law was recently shown up by the Magistrate. A Chinaman was charged with selling Macao lottery tickets, and as any form of gambling is illegal in this Colony, the man was convicted. In the course of the evidence it turned out that some, not all, of these tickets were bogus ones. The man was therefore convicted on the genuine tickets, but got off scot free for the forgeries, as they could not be said to be lottery tickets. He could have been prosecuted for obtaining money on false pretences, but that would have necessitated the proprietors of the Macao lottery appearing. This they are most unwilling to do, as in all probability they would be non-suited on account of the illegality of their business. Speaking on this subject, a Portuguese gentleman bought a whole strip of lottery slips amongst which was the winning number of the second prize. He sent the ticket to the Macao lottery and presently received an intimation that that number certainly had won, but his tickets were bogus ones. His language—well we will allow our readers to imagine it.

THE *Penang Gazette* says that the following appeared in the *Scotsman*:—"It has just transpired that Dr. Leyds was horsewhipped by an Englishman about a fortnight ago. The visitor obtained access to Dr. Leyds' private room by representing himself as an emissary of a Pro-Boer newspaper in England; but as soon as he was alone with Dr. Leyds he produced a bundle of cartoons of Queen Victoria, which had been published by Dr. Leyds in French newspapers, saying, 'You scamp! I am going to thrash you for this.' He then displayed a whip, and promptly laid it across the shoulder of the Transvaal plenipotentiary. Dr. Leyds endeavoured to summon assistance, but was unsuccessful, and as his English adversary still continued to rain blows upon him, he finally crawled under a table, where he could not be reached, and from that position, in a piteous voice, shrieked for help. The Englishman finally said, 'I have given you what my country will give your rascally employer at Pretoria,' and then left in a leisurely manner, driving off in a conveyance which was waiting at the door. Dr. Leyds at first informed the police, but afterwards begged that no notice be taken of the outrage, as it would make him the laughing stock of Europe.' He has been under medical treatment since, and had plasters on his back when he left for Berlin to dine with Prince Hohenlohe."

The abridged prospectus of the "Cheong Fat" Ferry Company was published yesterday in our advertisement columns. The ferry has been started to provide for the increased passenger traffic between Hongkong and Yau-ma-tei, and later on, other places between Hongkong and the East and West River of Canton, where there is a large Chinese passenger traffic.

Two stories from the front, of high acts of gallantry, are related in the New Year's annals of the Royal Humane Society, which, at its first meeting for 1900, directed should be suitably rewarded. The heroes belong to the 2nd Fusiliers in Major-General Barton's brigade at the Tugela. About midday on Nov. 28 a private of the Royal Scots sank in 20 feet of water while bathing in the Bushman's River at Estcourt, Natal. Private O'Connor, of the Royal Irish, courageously dived several times, and at last found the body, but life was extinct. Some two hours later Sergeant Bennett, of the 7th Royals, sank while bathing near the same place. Again O'Connor dived and recovered the body, but too late to save his life. On the same day Private Figg, of the Royals, was overcome by the current while bathing. Private Donnelly, of the Royal Irish, plunged in, and after a desperate struggle landed him in safety. Both Donnelly and O'Connor now receive the medal for their gallant actions.

## HONGKONG LEGISLATIVE COUNCIL.

This afternoon, a meeting of the Hongkong Legislative Council was held in the Council Chamber at the Government Offices, there being present His Excellency Major-General Gascoigne, C.M.G., (officer administering the Government) the Hon. F. H. May, C.M.G. (Acting Colonial Secretary), the Hon. W. Meigh Goodman (Attorney-General), the Hon. A. W. Broom, the Hon. A. M. Thompson (Director of Public Works), the Hon. D. C. Munro (Director of Public Works), the Hon. H. T. H. Whitehead, the Hon. C. P. Chater, C.M.G., the Hon. Dr. Ho Kai, the Hon. H. C. Nicolle, the Hon. Wei A Yuk, and Mr. R. F. Johnston (Acting Clerk of Councils). The Clerk of Councils read the minutes of the last meeting.

In the absence of H. E. The Governor the chair was taken by H. E. Major-General Gascoigne, who, on taking his seat said that the work would be quite new to him, but as he was surrounded by personal friends he knew they would deal leniently with his shortcomings. One thing he would like to say was that he came to the Colony in which he had been for the last eighteen months, which were the happiest he had ever spent and in which he had made many firm friends (applause). The Colonial Secretary laid the following papers on the table:—Report on the New Territory for the first year's working and Financial Minute No. (14) and moved that the latter be referred to the Finance Committee. Financial Minute (No. 14) reads: "The Governor recommends the Council to vote a sum of two hundred and forty dollars (\$240), being an allowance granted to Inspector John Lee of the Registrar General's Department."

The Acting Colonial Secretary moved that the report of Financial Committee on minute No. 5 should be passed. The Hon. T. H. Whitehead wished it clearly understood that all the unofficial members had asked the Committee to appoint a sub-committee to enquire into all applications for increase of salary by government servants. This committee to be appointed by His Excellency the Governor and enquire into all applications, not limited to subordinate officers. He said that the increase in the cost of living was felt as severely and keenly by the junior officers as it was by the heads of Departments.

The Acting Colonial Secretary said that a telegram had been sent to the Secretary of State and it was not asked that all applications, but all other applications should be enquired into. There were two sets of applications that had been already granted the Superior Officers and the majority of the Chinese employees. A Committee could now only be appointed to enquire into the applications from the intermediate officers, the subordinates. Any other course would be contrary to instructions received from the Secretary of State.

His Excellency said he was not quite clear as regards this telegram. Mr. Whitehead said the telegram asked the Secretary of State to sanction that all applications should be referred to a committee. He was not aware that the word "other" had been inserted. All he wished was that justice should be done, and that while the heads received an increase, the subordinates should not be left out in the cold.

The Hon. Dr. Ho Kai said that the Acting Colonial Secretary was quite correct; the word "other" had been inserted. The Hon. C. P. Chater confirmed. The Hon. Act. Colonial Secretary asked whether Mr. Whitehead wished to re-open the question of applications already granted. Mr. Whitehead said "Certainly not."

Mr. May said then the hon. member had got all he asked for, as this committee certainly could not enquire into applications from the Chief Justice or the Puisne Judge, but could into every single servant other than these, as they would be subordinate officers.

Mr. Whitehead said he was satisfied with this ruling, as long as it was clearly understood that it meant all applications. The Colonial Treasurer then seconded the motion and it was passed.

Mr. Whitehead then, pursuant to notice moved the following resolution. That a Committee be appointed to enquire into the continuous rise in the market prices of most necessities of life such as meat, fish, and garden produce, and to report. He said that the facts mentioned in the petition signed by 152 ladies presented last week spoke for themselves. There was every credit due to these ladies. The evil did exist and it was a glaring one. The increase of salary recently granted showed that the increase on most of the necessities of life interested the Government and community. Mr. Keswick said he had great pleasure in seconding the resolution, as it seemed to him that if there were any grounds for the state-ment brought to bear, then the best thing to do was to find it out and put a stop to any such improper conduct. Mr. May said it was not quite clear whether the hon. gentleman meant a Committee appointed from the Council or from outsiders. Mr. Whitehead said from outsiders, and suggested the following names as sound, good, energetic business men: Dr. Harrison, Messrs. Maitland, Marshall, Osborne, and Francis. His Excellency before putting the resolution said he was quite in favour of the proposal, and the resolution was then put and carried, only two members, the Colonial Treasurer and Mr. Nicolle, voting against it.

The Attorney-General said that the members of the Committee would have to be appointed by the Governor, and asked if the hon. member included the names in the resolution.

Mr. Whitehead said No, he only suggested them.

His Excellency said he would have great pleasure in taking into consideration the names already suggested and any others that might be brought forward.

The Hon. T. H. Whitehead gave notice of the following question:—

REFORMATORY AT CAUSEWAY BAY.  
Does the Government, in view of the fact that a large area of recently cut soil is exposed all round the building, consider it safe to send boys into the "Bellios Reformatory" at Causeway Bay at any time within the next two years?

Will the Government before sending any boys into the Reformatory obtain a detailed medical report as to the sanitary condition of the surroundings of the reformatory?

The Attorney-General then moved the third reading of a Bill entitled an Ordinance to amend and consolidate the law relating to the carriage and possession of arms and ammunition. Mr. Chater rose to move as an amendment that the Bill be re-committed to allow of the insertion of another exemption, the Rifle Association.

The Attorney-General said he had a communication from the Chief Justice concerning this exemption, but he was sorry that he could not accede to the wish that the Rifle Association should be exempted. It was not at all desirable that all the members of this Association should be exempted. The majority of its members were already exempted as Volunteers, Military and Naval men, and as special jurors, the residue could very easily get a license by applying to the Captain Superintendent of Police, for which there was no fee charged. In England they were much worse off as nobody, not even members of Council, were exempted, and a fee of ten shillings was charged for a license.

Mr. May seconded the Attorney-General's motion.

Mr. Whitehead moved that the Bill be re-committed to allow of the insertion of a clause postponing its operation for the next six months, as many European importers had entered into contracts which would be outstanding for the next six, eight, or ten months and so if this fee of \$1,200 was enforced at once and so if the Chinese dealers would be unable to meet their engagements. He considered that six months was a reasonable time to allow these operators.

The Attorney-General said all the dealers with unexpired licenses would not be called upon to renew them until the expiration of their term. The Bill had been before the public some 3 or 4 months.

Mr. Whitehead—"Five years." The Attorney-General said it had come up first last November and last January they had had the views of the Chamber and Commerce. Dealers should not assume that the Bill would be materially altered during its stages and he should make their arrangements accordingly. It was hard on some people for a beginning but he could not see any specific reason for the postponement of its operation.

Dr. Ho Kai seconded Mr. Whitehead and said it was quite true that the Bill had been hanging about for the last five years and that it had been materially altered. He considered that three or four months should be given the dealers. He knew that when the licenses of many dealers had expired they had been granted temporary ones from month to month. He could not see why the Bill's operation should not be postponed to allow of its bearing less hardly on the Chinese dealers.

His Excellency said that new legislation must bear hardly on some people but he deeply regretted that he could not agree with the Bill should come into operation as quickly as possible.

The amendment was then put and negatived by seven to five. The Attorney-General then moved the third reading.

Mr. Whitehead again rose and moved as an amendment that the fee of \$1,200 be not enforced until January 1st, 1901 and that it was evidently the wish of the unofficial members that this Bill should bear as leniently as possible on the dealers and this fee which the hon. member stigmatised as exorbitant, should not bear so hardly as to force honest men from repudiating their obligations.

The Colonial Treasurer rose on a point of order, as this amendment was practically the same as the last, but was not upheld. Mr. Bellios seconded Mr. Whitehead's motion.

The Attorney-General said the question of the fee had been very carefully gone into at the Committee stage of the Bill, and had been already settled. It was not desirable to re-open it.

Mr. Whitehead—"The amount not the date." His Excellency upheld Mr. Whitehead in his discussion but still adhered to his former opinion that the sooner the Bill came into operation the better.

The amendment was then put and lost by 8 to 4. His Excellency then adjourned the Council sine die, there being no other business to transact.

## CANTON NOTES.

## LAWLESSNESS IN THE CITY.

A serious disturbance recently arose at a masked theatre, erected in front of the Pak Tai Temple, in San Kai, Canton, (temple dedicated to the god of the idle). During the performance a very severe shower of rain came down and the people not under cover made a rush for the sheds. As these places are not free, the soldiers and police attempted to keep the mob back but were unsuccessful until they had fired upon them. One man was killed while others were badly wounded, this excited the mob still more and a free fight ensued. After the fight the dead and wounded were placed alongside the theatre, for the purpose of attracting the attention of the magistrates. The proprietors of the theatre, were, however, able to satisfy the relations of the murdered man by paying \$600 and compensating the wounded.

## A BAD CASH CASE, OF ARSON.

The truth of the old saying that great things spring from small causes was well exemplified recently in Canton. A soldier went to a pigeon lottery shop and bought some tickets, offering in payment, among other coins, a bad cash. The gamblers refused to take this cash, the soldier at the same time would not change it, saying that the amount was too small to be of any consequence. A noisy dispute then took place in which the soldier got badly mauled by

the gamblers. The soldier's comrades, when they heard of it, went in a body to punish the gamblers but did not succeed, as their opponents had been forewarned, had barricaded the doors and received them with a volley from the roof. The soldiers then retreated and, after obtaining reinforcements, made another attack. The gamblers this time lost their nerve and when they had set fire to the house escaped along the roofs of the adjacent houses. The soldiers broke open the doors, extinguished the flames and after wrecking all the furniture and everything they could lay their hands upon, went away. The noise they made, however, roused the neighbourhood and the police received orders to shut the street gates so that the rioters might be captured. So much time was spent before this order was executed that the soldiers were able to quietly sneak away in the confusion.

## MRS. ARCHIBALD LITTLE AT FOOCHEW.

FOOCHEW, 24th March.  
Mrs. Archibald Little's lecture on the anti-footbinding movement on Tuesday last was not very well attended; the notice of it was far too short and the night was wretchedly cold and wet, both causes combining to keep away many who would otherwise have been glad to attend. Mr. Playfair, H.B.M. Consul, was in the chair and with a few preliminary remarks introduced the lecturer to the meeting. Mrs. Little commenced her address by expressing a fear that her subject would prove rather a dry one to many present—a fear which, but these preliminaries were short lived for the lecturer was very soon carrying away the audience with her, what with what she had to say and the way in which she said it. Mrs. Little is a very rapid speaker, but her good enunciation makes her words easy and pleasing to follow. There was of course no need to point out to such an audience the wrong and suffering to which so many of the women in China had to submit by way of conforming to custom in having their feet bound, or the iniquity of such a misarrangement of the work of nature. The lecturer proceeded at once to relate the difficulties she had to contend with at the outside of her philanthropic work in her endeavour to put a stop to the practice; how in April 1895 the Society known as Tien Tsu Hui was founded, and interested the meeting by giving some account of the progress of its work. The headquarters of the Society were in Shanghai and there were so far twenty-one branches of it. To most of those present, apart from the Missionaries, the subject was quite new, and the success of the movement appeared to them wonderfully satisfactory considering the conservative nature of the Chinese. Not the least interesting of Mrs. Little's experiences was how she had succeeded in obtaining an interview with H.E. Li Hang-chang, direct, i.e. without the intervention of the Consul, at Canton. He was very kind and polite but intimated that he was unable to do anything to assist her. He, however, wrote his name on her fan which was taken to mean that although he could do nothing he approved of the object she had in view. At the conclusion of the lecture Mr. Playfair proposed a vote of thanks to Mrs. Little for her very interesting address which was seconded by Mr. Westall and carried unanimously.—*Foochow Echo*.

## STORAGE OF PETROLEUM AT KOBE.

There appears to be a difficulty regarding the storage of petroleum in Kobe, two places only—Onohama and Wada Point—being set apart for this purpose. The oil godowns and tanks at Wada had to be removed to Moita on account of the proposed Shipbuilding Yard at Wada, and the godowns at Onohama, it is stated, shortly be removed also. A Prefectural Order restricting the quantity of oil to be stored in the city to 20 *koku*. This restriction the oil dealers consider tends to hinder the development of the oil trade at the port, and the Kobe Petroleum Guild decided to present a memorial to the Governor asking that the Prefectural Order restricting the quantity of oil to be stored in the city should be amended, and that dealers be allowed to store any quantity in their godowns at any place in the city. The petition was laid before the City Office on the 23rd inst., to be submitted to Governor Ohmori. It is not likely, however, that a Prefectural Order designed for the public safety will be amended so as to remove all restrictions whatever as to storage.—*Kobe Chronicle*.

## JAPANESE TOPICS.

[FROM OUR OWN CORRESPONDENT.]

YOKOHAMA, March 22nd.

The land registration question is still unsettled, and it appears highly probable that a large amount of trouble and further delay will have to be borne by foreign land owners in the former foreign settlements before the matter is satisfactorily arranged. I gave a resume in my last letter of the views expressed and resolutions passed at a meeting of land renters held here, and those views and resolutions have since been semi-officially answered by an editorial published in the *Japan Mail*. That journal does not think there is "the slightest probability that the Japanese Government will ask the Diet to legislate in the sense indicated by the meeting of land-renters," and is convinced, from enquiries made, "that if the Government's position were fully understood the desire for legislation would cease to be entertained." The *Mail* then proceeds to examine the resolutions adopted at the meeting, and states that, "according to the Government's view, which we believe that our enquiries have enabled us to understand, it is emphatically denied that 'steps have not yet been taken to confirm the perpetual leases.' If we turn to the Imperial Ordinance of December 27th we find that the title deeds of lands held by foreigners in the settlements are actually confirmed." In the ordinary routine of Japanese legal procedure title deeds are said to have "no existence," they may be said to have "no existence," but they are said to have "no existence," and the Imperial Ordinance of December 27th recognises title deeds as essential in the case of the settlement lands, and thus effectually differentiates their tenure from the ordinary kind of tenure provided by law. In a word, the Ordinance confirms the leases.

Further, "it is emphatically denied that the 'laws of Japan contemplate the compulsory conversion of the leases into a new and different kind of right called 'superficies.' They stand exactly as they are, now for all time, their form unchanged, and their philosophy unaltered." Discussing the second resolution, the writer in

## THE NEW PHILIPPINE COMMISSION.

JUDGE TAFT'S VIEWS.  
WASHINGTON, March 6.

Senator Perkins presented Senator Bard and Professor Bernard Moses of the University of California to the President this morning. The President congratulated Mr. Bard on his election and California on the fact that the State again had a full representation in the Senate. Mr. Bard thanked the President and informed him that he would loyally support the administration's policy.

The President at the same interview tendered Professor Moses an appointment on the new Philippine Commission, which was accepted. In presenting Professor Moses, Senator Perkins assured the President that nearly every college in the country had endorsed him. President McKinley replied politely that he had read some of Professor Moses' works on Spanish government, Spanish colonies, etc.

Professor Moses was seen by *The Call* representative to-night. He was adverse to talking freely of Philippine affairs, but said that he believed in the general policy of expansion. As for the Philippines, he could say nothing until after he had visited the islands. He will remain here until about March 24 preparing himself for membership on the commission, and will sail from San Francisco for Manila on April 15.

Judge Taft, the president of the new Philippine Commission, has this to say: "The commission is not organized. Its members have not conferred together. I speak, therefore, for myself alone. I am not now and never have been an expansionist. I have always hoped that the jurisdiction of our nation would not extend beyond territory between the two oceans. We have not solved all the problems of popular government so perfectly as to justify our voluntarily seeking more difficult ones abroad. I do not think in this instance that we have voluntarily sought them. Circumstances beyond our control, the sequel of the Spanish war, have thrust on us responsibility for the future government of the Philippines. The proposition is vigorously denied by high-minded and conscientious men and by some with a fury of superlative and epithet that is hardly consistent with a judicial attitude or an impartial consideration of the question. My conviction is that the calm investigation of the future historian into all the conditions existing at the time of taking each step toward the present situation in the Philippines will lead him to conclude that President McKinley and his administration selected in each crisis the only alternative which a due regard to our national and international obligations would permit.—*Call*.

## GERMANY AND THE SULU ISLES.

A STRANGE STORY.

WASHINGTON, March, 2nd.  
Private information has been received at Washington by mail from Manila that about six months ago a German warship visited the Sulu islands, and an officer or officers of the vessel endeavored to persuade the Sultan to declare himself and his possessions under the protection of the German crown. The sender of this information says that the Sultan rejected the attempt to get him to repudiate his acknowledgment of American authority.

While this report would hardly have received credence here a few weeks ago, the suspicion that Germany is behind Spain's attempt to regain the islands of Sibutu and Cagayan Sulu on the claim that they were not transferred to the United States by the Paris treaty falls in closely with the new information. The man responsible for the statements concerning the visit of the German warship to the Sulu group is described as being thoroughly reliable.

No answer has been returned by the Government to the representatives of Spain about Sibutu and Cagayan Sulu. An examination of the law and geographical and historical authorities is being made by direction of the Secretary of State to ascertain if there is any warrant for Spain's claim.

A statement was made to-day by an official concerned in the matter that nothing has been discovered yet to change the opinion of the department that the entire possessions of Spain in the Philippine archipelago, whether included within the boundaries set forth in the peace treaty or not, were transferred to the United States.

BERLIN, March 2nd.  
The Foreign Office, when questioned to-day regarding the cable report that certain islands in the Philippine archipelago are the subject of controversy between Washington and Madrid, but were likely to become American, replied that Count von Buelow had accidentally learned of a difference of opinion between Spain and the United States as to whether the islands in question were included in the treaty of Paris, and that negotiations in respect to these were in progress.

The official said it was understood that the negotiations were being conducted in a friendly spirit, and he pronounced entirely false the report that Germany wants the islands.

MADRID, March 2nd.  
It is said that representatives of the United States, Great Britain and Germany have sounded the Spanish Government to ascertain its intention regarding the Philippine islands not included in the cession to America.—*S. F. Chronicle*.

## ENGLAND'S DOWNFALL PREDICTED.

CHICAGO, March 4th.  
President David Starr Jordan of Stanford University, California, lectured at All-Souls Church to-day, speaking to a large audience on "The Blood of a Nation." He said that the present century would witness the downfall of Great Britain. He declared that ultimately the people of South Africa would have their freedom.

The speaker in emphatic terms asserted that the present inhabitants of Great Britain were a mere shadow of their forefathers in point of brains and health. Jordan thinks that a nation that founds its destiny on war must reach a speedy decay. He said a great war saps the vitality of the best blood of the nation. Jordan deprecated that so many of the best youths of a nation are killed during times of war. He remarked that this accounted for the existence of a weak nation, both mentally and physically. The speaker declared that France, more than any other great nation, had deteriorated. He said war, more than anything had contributed to this sorrowful condition.

Among other things he said: "I think war, more than any other agency, destroys the vitality of a nation. Take for instance, the present British-Boer war. The best representatives of both countries are now on the field of battle. War not only makes widows, but it prevents many marriages. I am certainly of the opinion that war is a curse of any nation, unless it is the result of a fight for freedom. Such a thing as carrying on war for the sake of encouraging Imperialistic ideas will wreck sooner or later, a nation that tries such a scheme."

## THE BIG TREES OF CALAVERAS.

Gratifying, indeed, says the *San Francisco Call* of 5th ultimo, is the announcement from Washington of the passage by the House of the resolution of Congressman de Vries authorizing the Secretary of the Interior to open negotiations for the purchase of the famous grove of big trees in Calaveras. Early during the week the measure will be called up in the Senate by Senator Perkins; and there is every assurance it will receive there an attention not less prompt than favorable than in the House.

With the passage of the measure the redemption of the grove from the destruction which threatened it is virtually assured. It is not likely the Secretary of the Interior will delay in acting upon the authority given him, or that the lumberman of Duluth who holds the bond upon the grove will interpose any serious obstacles in the way of the purchase. The big trees, which as a living grove are invaluable, would be of no great value when reduced to firewood, lumber, shakes and shingles. It will, therefore, be to the advantage of the owner to dispose of them to the Government, and no doubt he will gladly do so. If, however, for any cause he should be foolish enough to desire to destroy the grove, action will be taken by Congress to authorize the Government to institute condemnation proceedings to acquire the land.

In the satisfaction felt over the prospect of preserving the grove the public should not neglect to give due credit to the energetic men and women of the State to whose public spirit and action the present good results are primarily due. Every notable work performed in this way for the general good is a matter for congratulation. It will encourage further efforts for State improvements by co-operation and lead to many results hardly less important than the preservation of the wonderful trees.

## ANGLOPHOBIA AT HANOVER.

BRITISH FLAG TORN.

BERLIN, March 4th.  
At Hanover some persons, not yet identified, tore a British flag and made an anti-British demonstration in front of the residence of an Englishman who had displayed the Union Jack in celebration of the successes in South Africa.

The semi official *Berliner Post* in a strong article—again begs the Anglophobia press to discontinue the practice of abusing British statesmen and generals and British enterprises generally, declaring that this does more harm than they suppose.

The *Post* asserts on the authority of a private letter from the Transvaal, received at Hamburg that the Boer republic, on January 15, had issued altogether 46,500 identification cards to Boers in the field. The writer of the letter claims that these figures represented the total Federal forces at that time.

THE NEW FRENCH REMEDY.

THE RAPIDION. This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION No. 1, in a few days only, removes all discharges from the urinary organs, effectually superseding injections, the use of which does irreparable harm by laying the foundation of a future and other serious diseases. In dysuria, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief where other well-tried remedies have been powerless.

THERAPION No. 2, for impurity of the blood, scurvy, pimples, spots, blotches, pains and swellings of the joints, secondary symptoms, disease of the bones, sore throat, and all diseases for which it has been too much a fashion to employ mercury, arsenic, &c., to the destruction of the sufferer's teeth and ruin of health. This preparation purifies the whole system through the blood
